

# mpower is all about uniting and integrating your business.

## THE POWERFUL TOOL THAT WORKS FOR:

- > program management
- > project management
- > contract management
- > KPI dashboard reporting
- > engineering
- > scheduling
- > norms management
- > purchase order management
- > change management
- > project valuation
- > time and expense
- > HR
- > graphical and tabular reporting

## INTRODUCING mpower

mpower is a proven solution for project cost management, designed and developed for use in engineering, construction, maintenance and operations environments. It provides an integrated solution for cost control, productivity management and earned value. With mpower, you can schedule, cost, time-write, bill, procure, estimate, control, manage and report: and you can do it all from anywhere in the world.

## mpower AND INTEGRATION

mpower enables you to leverage value from your existing software investment by providing a platform for integration with

- SAP
- Oracle E-business Suite
- IBM Maximo
- Primavera
- Microsoft Project

## mpower BENEFITS

- complete control - mpower gives you an overall view of all aspects of the business
- lower costs - information is current, accurate and relevant
- no more double entry - reduces errors, as data is only entered once
- shared platform - the same data and information can be seen or gathered by anyone, anywhere in the world

## mpower RESULTS

- projects run more smoothly
- you spend less time fire fighting and more time managing
- you save time and money
- overall quality is improved through greater control, fewer errors and greater efficiency

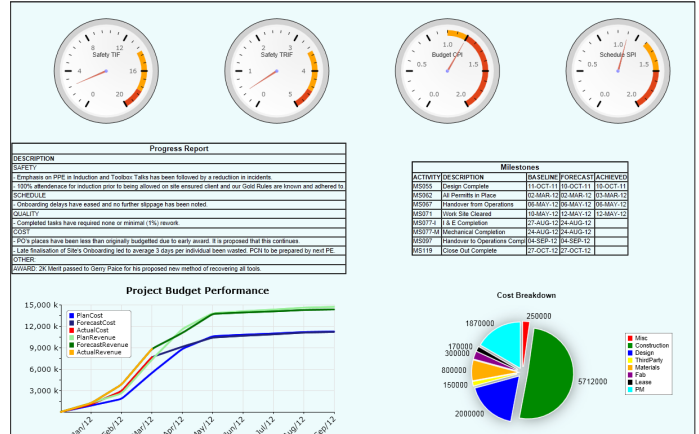

mpower is all about uniting and integrating your business.

**PUTTING mpower TO WORK**

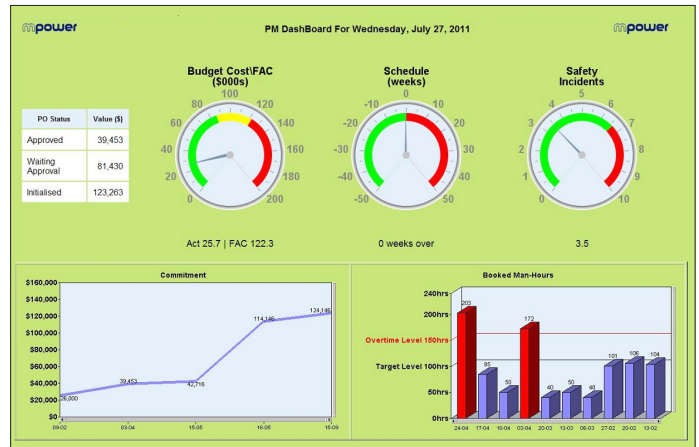

mpower is fully scalable and modular, so you can begin to use it on a project-by-project basis. It works with your existing systems, so implementation can be fast, painless and inexpensive. With the optional Cloud solution, there's no need for a hefty upfront investment in hardware or software – you can enjoy all the benefits of mpower for a very affordable monthly fee.

Whatever the scale of your initial implementation, you'll get full support from Monitor, with a bespoke package of consultancy and training to ensure you get the most from your investment. And you can be up and running with mpower within a day.

**PROGRESS DASHBOARD**

**PROJECT STATUS REPORTING**

**EARNED VALUE REPORTING**
